

OP-DES Technical Sheet

Dualbander: 10 and 11m 6 element

The design is based on the antenna using 16mm and 12mm aluminium tubes

Antenna Model: 10/11M6 - 6 Element OP-DES Band(s): 11/10m 26.250-28.500 Elements: 6

Antenna resonance may be changed (to a small degree) by changing the length of **all** elements

Move all element end tips **IN** by 2cms to extended the coverage above 28.500 Mhz.

The bottom end of 26mhz will also move up slightly higher. Element positions on the boom remain unchanged.
