

# 15M2 Delta Loop Technical Data

## 4 Section Element Tubes

Top Wire = 465 cms total  
Includes loop back to strain-relief.  
Pre-cut - antenna front-to back tuned  
taking this into account

Top Wire = 445 cms total  
Includes loop back to strain-relief.  
Pre-cut - antenna resonant freq tuned  
taking this into account

**Reflector Element**

**Driven Element**

### Reflector Element Tubing Lengths

25mm Tube = 150cms  
20mm Tube = 123cms  
16mm Tube = 150cms  
12.7mm Tube = 62cms

### Driven Element Tubing Lengths

25mm Tube = 150cms  
20mm Tube = 123cms  
16mm Tube = 150cms  
12.7mm Tube = 53cms

Boom: Element to Element Spacing = 206cms
